RECKLESS EXPENDITURES.

In the Senate on Saturday night shortly before final adjournment Senator Shively, of Indiana, took the republican party to task for their reckless appropriations.

For the fiscal year of 1910, he pointed out, the appropriations were \$1,055,663,367. According to the republican figures, the appropriations for the fiscal year of 1911 are \$1,026,537,500, but he said they failed to include many millions which must be cared for in the future because of authorizations made during the session. Among these millions Mr. Shively put authorizations for \$27,000,000 in the public buildings' bill, \$10,618,000 for continuing contracts in the rivers and harbors bill and \$1,219,050 for additional aid to navigation, for which no appropriations have been made, but for which expenditures Congress has given its pledge. Republican senators, he said, had been talking much of economy during the session, but the record disclosed, he said, that there had been no progress in that direction.

NEWS OF THE DAY.

Butler Ames, in announcing his candidacy for the Senate from Massachusetts, attacks Senator Lodge as a "boss" and corporation man.

Dan Sully, the old-time actor, died at his home at Woodstock, N. Y., Saturday from Bright's disease and heart disease. He had been ill for three months.

Four drownings and many rescues resulted from the Sunday outings yesterday at New York and vicinity, and one motor boat was burned to the water's edge, despite desperate efforts to overcome the flames.

The story that ex-President Theodore Roosevelt was to be operated upon today at the Manhattan Eye, Ear and Throat Hospital in New York by Dr. Walter Franklin Chappell, is officially denied by Dr. Chappell's office.

President Taft Saturday afternoon signed the public buildings bill which authorizes the expenditure of \$22,000,000, but does not actually appropriate the money. The appropriation will be left to the next Congress.

The congressional printing investigation commission, in a preliminary report submitted on Saturday announced that it already had affected an annual saving in printing and binding that will amount to fully \$110,000.

Enraged because his wife had determined to leave him on account of his violent temper, David Downes of Bangor, Me., shot and killed her and her mother, Mrs. Ivy Woodward, and then killed himself with the same rifle yesterday. Downes was 33 years old and his wife 28.

In the Senate Saturday Senator Stone stated that he had been informed that a syndicate had been organized in the United States to exploit the finances of Nicaragua and that the syndicate had been represented in Washington by a former high official of the State Department.

A dispatch from Lacrosse, Wis., says: Only three persons out of 1,500 lost their lives Saturday night on account of the burning in the Mississippi river of the excursion steamer J. S. It is said that a cigarette stub started the flames under a stairway. The loss to the Acme Packet Company is \$30,000.

Harry H. Schwartz, chief of the general land office field service and one of the prominent figures in the Ballinger-Finchot controversy, has tendered his resignation and will be succeeded by James M. Sheridan, now special agent of the land office with headquarters at Denver.

Three persons lost their lives and another had a narrow escape from serious injury in a fire that destroyed the new Seneca House at Seneca Falls, N. Y., yesterday. A building adjoining the hotel was also burned and the loss is estimated at \$40,000. The dead are Mr. and Mrs. Thomas White, of Rochester, and an unidentified man who did not register. About 20 persons were in the house, but the others escaped.

William Henry Brown, of Philadelphia, formerly chief engineer of the Pennsylvania Railroad, died suddenly from heart disease in Belfast, Ireland, on Saturday. In October, 1861, Colonel Scott of the Pennsylvania Railroad selected him as engineer of the United States military railroads in northern Virginia, with headquarters in Alexandria, where he was stationed for some time.

Barred in his home in the western part of Irwin county, Ga., W. H. Bostwick resisted two attacks of officers yesterday, killing two men and wounding three others. He is a white man, with a reputation for fighting, and has threatened to kill every one who comes in range of his bullets. The authorities have asked Governor Brown for troops to storm the little house where the man is hiding. Bostwick is well armed with rifle, shotgun, and pistol, and has a good supply of ammunition. In the house with him are six of his children.

HIS HIGH-LOW BATHING SUIT.

Appearing on the beach at Atlantic City on Saturday in much abbreviated skin-tight trunks and a shadow jersey cut more decollete than the most daring feminine ball dress, Lewis Rhinehart, who says he is a wealthy sugar planter of Havana, Cuba, fell a victim to the new city rule against male beach "posers," and was arrested after blushing women in beach chairs had complained to the police.

Police men wrapped a coat around the visitor while he was taken to the city hall in a patrol wagon. Friends came to his rescue and gave bail.

The arrest followed the new order of Mayor Stoy, in which he insisted that men who dress in airy bathing suits for the purpose of attracting female attention to their manly forms should be driven from the beach or arrested.

Rhinehart, who declared his arrest to be an "outrage," insisted that his costume was not immodest and that he was not posing, but was on his way for a swim in the surf. He refused to give his hotel address, and was hustled away in an omnibus to don his real clothes.

UNIVERSITY SUMMER SCHOOL.

The present session of the University of Virginia Summer School gives every indication that it will eclipse all previous records of the school. In point of attendance, there is certain. There are already one thousand students matriculated, and it is estimated that a hundred or more have entered the classes and will register in the next few days. If the usual rate of enrollment continues it is probable that the total enrollment will exceed fifteen hundred students.

The faculty of the summer school comprises scholars and teachers from the universities and colleges all over the country. Of special interest are the classes in education, domestic science, manual training, and agriculture. A fourth of July pageant similar to that one given last year is planned again for this year. It is expected that it will be even more elaborate than the preceding one.

Miss Annie Boorman, of Catletts Station, and Mr. Sam Wortham, of Baltimore and Richmond, were married on Saturday at Wilmington, Del.

The Arlington Brewing Company, the plant of which is located at Rosslyn, in this county, has been notified by Commonwealth's Attorney Crandall Mackey, of that county, that it shall not sell beer at the brewery or anywhere else in Alexandria county, and that no person, firm or corporation may solicit orders for beer or other intoxicants, or act as agents for the sale or transmission of such orders.

Select Soft Shell Crabs on toast and Deviled Crabs at Spinks's Cafe, Prince and Royal streets.

LIGHTNING IN GERMANY.

Hardly a day has passed in Germany since the end of May without its thunderstorm. A series of mishaps began at Cologne, where the lightning struck a factory and seriously injured twenty persons, besides doing material damage. The same day in Saxony a company of soldiers were struck and eighteen men the following three days in the Rhine-land alone twenty persons lost their lives from the same cause, while twelve deaths by lightning were announced from Thuringia. In Luxemburg three children were killed while on their way to school, and this by no means exhausts the list of child victims. The case of the six persons killed in the Jungferheide forest district outside of Berlin, with an accompanying total of eighty persons injured, is still fresh in recollection.

THE LATE FRANK S. HARPER.

To the Editor of the Alexandria Gazette.

In the death of Frank S. Harper Alexandria has suffered an irreparable loss. As a citizen he was active and progressive; a business man ever alert, always honorable and upright, and a devotedly successful, a staunch friend without guile or subterfuge; socially, an ever pleasant companion, with a philosophy broad and kindly in its humanity; an example to the present generation of thrift, energy, and integrity, and their ultimate reward—success; withal, a gentleman. Such was the character of Frank S. Harper; such characters can be ill spared from any community. The passing of such a character from our community is an irreparable loss to Alexandria.

ALEXANDRIAN KILLED.

The body of a well-dressed young man which was found beside the tracks of the Southern Railway Company about half a mile south of Manassas yesterday morning, proved to be that of Benjamin Sandman, of Alexandria, who had recently been employed in a hushroom conducted by Stephen Davis, on north Le street. Davis left for Manassas Saturday night, accompanied by several of Sandman's friends. A coroner's inquest was held at Manassas yesterday afternoon after which the remains were buried.

Sandman was about 23 years old, and is said to have had a wife, who is supposed to be in Baltimore.

Stephen Davis and Roy Beach, jr., the latter a brother-in-law of the unfortunate man, went to Manassas last night and had the body exhumed. They identified it as that of Sandman, and this morning the remains were brought to Mr. B. Wheatley's undertaking establishment. The circumstances in connection with the death of the young man are unknown, although it is generally believed he jumped or fell from the train and fractured his skull. His companions are evidently ignorant of his fate, as they remained on the train.

The party boarded southbound Chesapeake and Ohio passenger train No. 3 when it reached the Union passenger depot at 11:30 Saturday night. Railroad officials believe Sandman jumped off the train a short distance south of Manassas, when he found the train would not make a stop.

CHILDREN'S DAY SERVICES.

The children's day services given by the Sunday school of the First Baptist Church last evening was a success in every particular. After opening with carols and scripture reading, a sacred juvenile cantata, entitled "The Morning of Life" was successfully carried out, following which the superintendent made an appeal for the Sunday school work of the state mission board which is developing the Sunday school work in Virginia. The Baptist schools of Virginia are being placed upon an organized and graded basis. Better equipment is being provided, the teachers are preparing themselves for their tasks to an extent not hitherto known, and the outlook is most promising for Virginia Sunday schools to take a high place in Modern Sunday school work.

A PLEASANT SUNDAY.

Weather conditions yesterday were ideal, the heavens being clear and the temperature pleasant. A stiff breeze from the east prevailed last night, and early this morning the weather was unseasonably cool. Conditions today have been pleasant.

Generally fair weather, with no extremes of temperature, is predicted by the weather bureau for this week over the greater part of the country.

Warm weather, however, will again be in evidence in the near future, when it will be to observe the following rules, drink plenty of water in hot weather, it promotes perspiration, which has a tendency to relieve the human body of the result of excessive heat.

Dress as thin as possible and avoid the direct rays of the sun.

Get as much sleep as possible. This will better enable one to withstand the heat.

Do not eat as much as in winter. The system does not require as much food in hot weather as it does in cold weather.

Do not lose your temper and fret over little things. The person who worries and frets is very apt to be affected by the heat.

Keep out of deep and entangling discussions. Think about pleasant things and keep the mind bright and cheerful.

Don't attempt to meet trouble half way. The individual with an absolutely perfect nervous system can better stand the heat than one who moans through the half way and who is always looking for an opportunity to have a scrap with his neighbor.

RIVER NOTES.

The British steamer Paul Paix, which recently brought slag bricks from England to Washington, passed down the river for Norfolk at an early hour yesterday morning.

The United States dispatch steamer Mayflower passed down the river this morning.

WHERE IS THE DOG CART?

It was announced last week that the dog cart was to be sent out. If it has made any rounds, it must have followed in the wake of another nocturnal vehicle, as nobody seems to have seen it in the daytime. Stray and ownerless dogs are still to be seen in all quarters of the city.
